## Risk Assessment Overview Ufton History

Risk Area	Risk Analysis
<b>Site Orientation</b>	An introductory site tour highlights relevant hazards to the guests along with the boundaries and any restricted areas. These hazards are constantly monitored while guests are on site. As a result of this control measure, the risk level is low in all areas mentioned.
<b>Fire</b>	We conform with Regulatory Reform Order (Fire Safety) and have Fire Risk Assessment in place. Each new intake has a walk-through explanation of the fire procedure on day of arrival.
<b>Security</b>	For residential groups, keys are provided to visiting adults and external doors locked at night with intruder alarms set. We have on-call staff living on site and groups are provided with a mobile phone enabling direct contact.
<b>Identification</b>	All adults wear identity pass, including visitors and contractors. Ufton staff are identifiable by an Identity pass, branded clothing, historical clothing and/or high visibility clothing.
<b>Lighting</b>	Adequate lighting of all walkways, both internally and externally, automatically come on after dark.
<b>Slips &amp; Trips</b>	As an outdoor learning site, the grounds are uneven and often wet and slippery. Sturdy outdoor shoes are recommended and advise all visitors to be aware when moving around the site.
<b>Utility Integrity</b>	All utility installations are routinely inspected.
<b>Traffic Hazards</b>	We have an electronically controlled entrance gate including intercom, speed humps and signage. Safety briefing includes the crossing of the site road
<b>Emergency Procedures</b>	An emergency action plan (called the Critical Incident Plan) in place. All staff are trained and is rehearsed regularly.
<b>Weather</b>	Please check the weather in advance and prepare accordingly. Sturdy outdoor shoes are recommended. Footwear and clothing checked before activity. Outdoor conditions assessed with activities and locations adapted ensuring safety of all visitors and staff.
